

FIRST-EVER

Intellishare Environmental is pleased to announce the newest product in its flameless technology line — the **first-ever Flameless Electric Thermal Oxidizer (FTO)**. Superior to any gas thermal oxidizer operating today, the **FTO cleans contaminated areas faster, operates cheaper and runs more efficiently.**

The "FTO" Advantage

- Faster cleanup = **less cost** (processes 3x more hydrocarbon concentration than an equivalent electric catalytic oxidizer)
- **70-95%** less power consumption via proprietary heat recovery system
- **Reduces** formation of NOx & SOx
- **Less** green house gas emissions
- Automatic **restarts** after power failures
- Fuel train and burner maintenance **eliminated**
- **Eliminates** thermal degradation of catalyst and catalyst poisoning

INTELLISHARE ENVIRONMENTAL

Visit our Web site at www.intellishare-env.com for complete details on the FTO and our full range of products and services.

First-ever FTO

Using proven flameless technology, the FTO cleans the environment:

- ✓ **Faster**
- ✓ **Cheaper**
- ✓ **More Effectively**

Small Footprint
BIG Results!
